SPORTING TALK OF INTEREST

CELLA AND CONDON TO MAKE FORT ERIE THEIR BEST TRACK.

will Spend \$40,000 in Improvements and Will Conduct a Forty Days Meeting in Conjunction With Madigan and Stuart -Bookmaker Joe Ullman's Career.

The Western turf combination of which A. Cella, John Condon, John H. Madigan and others are leading factors has laid plans or a big meeting at the Fort Erie track, near Buffalo, this year. It is about the only place oft where the Western crowd can operate on a large scale. Although Fort Erie is in Canada Madigan, Cella, Condon and the others secured absolute control of it not long ago and will operate the plant in the name of the Niagara Jockey Club. With no chance for racing at Chicago, St. Louis, Kansas City, Memphis. Hot Springs and Windsor and the sport curtailed at Louisville and Latonia, the Western confederacy will conduct a meeting of forty days at Fort Erie following the sur mer session at Kenilworth Park, Buffalo. neidentally about \$40,000 will be spent in fitting up the plant so that it will meet up to

date requirements.

Cella, Condon, Madigan and Dan Stuart, a hig stockholder in Oaklawn Park, Hot Springs, now closed, owned equal shares of the Fort These men have just held a confab in Chicago, at the conclusion of which Condon said: "We have decided to spend \$40,000 in improvements at Fort Erie, which be absolutely controlled by us, and we will have a forty days meeting there. We have decided to make the betting ring 'open' instead of a syndicate affair, as has been the ease in former years. We intend to make the Fort Eric meeting one of the best outside New fork State and will offer such liberal inducements to horsemen that good racing should We will make no further attempt to race at Hot Springs, as present conditions not warrant such a move." The Fort Erie people have been working in harmony Buffalo track, of which Joseph A. Murphy is the manager. Madigan, now openly a partner of Cella, Condon and Stuart, was one of the big men in the conduct of Kenil-

Sporting men deplored the death of Bookmaker Joseph Ullman yesterday. Ullman was known on all of America's leading racetracks. He started out as a butcher in St. partnership with his brothers, Cole and Alec, but soon became interested in the turf. He was associated with Leo Mayer and George Wheelock in laying the prices for a while and afterward was identifled with Ed Corrigan in the days of the West Side and Hawthorne tracks in Chicago, where he operated a "foreign" book which is said to have cleaned up \$600,000 in less than a year. When the Chicago tracks were closed Ullman went into the poolroom business and ran a noted place on "No Man's Land," an island in Chesapeake Bay.
He also conducted several gambling houses

both in this city and at Saratoga and finally in partnership with Kid Weller he gained a lot of notoriety by running an immense book known as "The Big Store" on the Eastern tracks several years ago. It was the policy of this concern not to refuse a wager of any size, with the result that in several instances 325,000 commissions were readily accepted. But so much attention was attracted by Ullman and Weller that they soon received a tip to suspend operations. Ullman practically quit the turf two years ago to become the financial backer of an opera company. He also dabbled in Wall Street and is said to have been more than ordi-narily successful on more than one occa-

Adam. is now standing, have purchased the fifteensear-old chestnut mare Ballet Queen, by Macaroon-Abundance, by Kaiser, and will breed her to Adam this spring. Ballet Queen is a full sister to Gregory and Fortune, both stake winners.

California turfmen believe that even with ob weight, 128 pounds, Sam Hildreth's Montgomery will be victorious in the \$10,000 Burns Handicap, to be run at Oakland to-morrow. Montgomery has been pointed for this event and is in superb condition just now. It is believed that his most formidable opponents R. T. Carman's Rifleman, 125 pounds, and Arimo, 117 pounds. There are thirtyeven possible starters, of which seventeen are doubtful, including the three-year-old Uncle, who has received the crushing impost of 118 pounds. The field may be made up of these racers: Arimo, Rifleman, Montgom-ery, Judge Nelson, Johnny Lyons, Clamor, Edwin Gum, Joe Nealon, A. Muskoday, Keep Moving, Red Leaf, George S. Davis, Miss Offcious and Massa. The distance is one mile and a quarter.

The current report of the Kentucky State Racing Association shows that in two years the Kentucky tracks have paid out nearly \$1,000,000 to successful horsemen. The work of the State Breeding Bureau is set forth with the statement that twenty-seven stall-ions have been placed and that 1,328 mares have been served. It is also pointed out that 697 yearlings bred in Kentucky were sold at the New York tracks in 1908 for \$504,330, while in 1907 819 head brought \$510,950.

Unless present plans are changed, McGraw will order a majority of the New York Nationals to report to Secretary Knowles a Cincinnati prior to making a start for Marlin Springs, Tex. This will make it easier for a number of the players who have been spending the winter in Western cities

James J. Corbett, who likes to talk baseball when pugilism and the stage are not under discussion, says that Roger Bresnahan is not only the best catcher in the country but he is also a better ball player in every way than late Buck Ewing. But veteran ball fans who remember Ewing in his prime will probable take exception to Corbett's statement, for they will insist that Ewing, in the first place, was a steadier catcher and a better thrower than Bresnahan, while as a leader he was in a class by himself. Ewing was also a phenomenal bataman and base runner, also a fine general player. Bresnahan is a great ball player, but few will be willing to place him above Ewing in baseball's hall of fame.

When John Ganzel was asked to sign as manager of the Cincinnati Reds the other day he told Garry Herrmann that he would not accept the terms offered unless he could have absolute control of the players at all Herrmann readily made this conession, but he could not guarantee to Ganzel that the many grand stand managers in Porkville would remain passive. Ganzel, however, has been hailed as the "greatest manager in the world," whose selection meets with the "hearty approval of all the fans." If the Reds fall back into the old rut it will be interesting to learn in what esteem Ganzel is held about the first of next July.

Robert Fitzsimmons, like other famous athletes, evidently does not know when to quit. Robert is out with a statement that he will fight any man in the world, black or white, who is in the middle or heavyweight class. Fitz intimates that his defeat at the hands of Philadelphia Jack O'Brien in Frisco two years ago was not on the level. Possibly Jack Johnson, who is hankering for a mill, might prove a suitable opponent for the antiquated Cornishman, even in a six round bout over in Quakertown.

Tom O'Rourke thinks that Joe Rogers, the American, has a fighting chance to beat George Hackenschmidt in their match for heavyweight wrestling championship. to be decided in London on January 31. Hackensack Expected to Hold the New Jersey Championship.

With the amateur championship fixed for September at Garden City the leading tourna ments of the spring will be the Metropolitan Golf Association championship at Baltusrol May 20-28, and the New Jersey championship the first week in June. Jerome D. holds the two titles as well as the national honor and at the annual meeting an Tuesday of the New Jersey Golf Association his club, the Montclair Golf, may be awarded the New Jersey tournament. Montclair had the tournament some years ago when Allan Kennaday secured his second win, and according to Spies, the president, the course be at the disposal of the organization, but no

formal application will be made. Three links in line for the tournament this ear are those of the Plainfield Country Club, Hackensack Golf Club and the Yountakah Country Club. The Plainfield Country Club will not make an earnest demand this time, but bids will be in from Yountakah and Hackensack. The latter has an excellent and acensack. The latter has an excellent and accessible eighteen hole course, with a particularly well equipped clubhouse, and seems to be first favorite for the championship. As an indication of the fine condition of the course winter and summer. William H. Watt played forty-two holes on Tuesday and repeated with forty-nine more on Wednesday.

Golfers are exceedingly wrathy at the closing of the Van Cortlandt and Forest Park public links this winter. No one objects to the courses being closed in the spring when the frost is coming out of the ground, but to banish the players from the public links in this fine goifing weather is deemed an outrage. Golfers who can afford a private club are having the best of sport now and but for the unusual zeal of the park commissioners the players of the public links could obtain as much enjoyment. A petition signed by 140 players asking that the Forest Park course be kept open as it was last winter has not even been answered. Some of the Forest Park players go to the course and practise driving, although they do so under threats of arrest made by the park workmen.

to come out at this season of the year, reported at the Yale gymnasium. It is expected that within a day or two this number may be increased to seventy-five.

The men will be put through the regular practice in the tank and the every day runs out of doors to harden them up before Coach Kennedy will take the men on the water. There are four vacant places to be filled in the varsity boat. All the members of the varsity squad of last spring who are in college and the members of last year's freshman crew were on hand to-day. The freshman crew of last year did not develop any star men on which the varsity coaches feel they can positively rely.

RACING AT NEW ORLEANS. Well Played Good Things and Outsiders Score at City Park.

NEW ORLEANS, Jan. 23.-Well played good things and outsiders almost swept the card at City Park this afternoon. The stable of A. Weber was prominent, and Sig Levy, a well known Western bookmaker, was credited with taking \$10,000 out of the ring over the victories of Tony W. and Bridge Whist, winners of the first and fifth races. Cooney K. was the only winning favorite. The sum-

ST. NICKS DEFEAT WANDERERS

CHAMPION HOCKEY TEAM HAS AN EASY TIME WITH NEW CLUB.

Score, 6 Goals to 6-Referee Brakeley Kept Busy Stopping Foul Play and Several Players Are Sent to the Bench

St. Nicholas Team So Far Unbeaten. The St. Nicholas Skating Club's hockey team took the scalps of the Wanderers yesterday and gave them the worst beating they have had so far this season. The St. Nicholas team won by a score of s goals to 0, and the supporters of the Wanderers were sad. They gathered in the St. Nicholas Skating Rink in fair numbers and rooted hard, but their players could do nothing with the rushes of the St. Nicholas forwards, and the Wanderers were on the defensive most of the evening. The good work of their goal keeper, Woods, kept the score from being larger.

Both teams had made some changes. Gorham, a new player taken from the Hockey Club, played centre for the Wanderers, while on the St. Nichdlas team Thompson played in place of Chew. He played an aggressive game and seemed to strengthen the life in its one weak spot.

The game was rough at times, so that Howard Drakeley had to keep his eyes open and several players were sent to the bench. Williams once deliberately kicked Wilder when he was on the ice. D. Gordon was slashed on the knee with Du Fresne's stick. and another time Wilder got a short end of the stick when in a bunch of Wanderer players that made him wince.
St. Nicholas now has three victories to its

credit and has next to meet the Crescent Athletic Club team. The Wanderers team has been beaten three times and has yet to meet the team of the Hockey Club of New

The game started rather tamely. Each side seemed to be feeling the other and the puck went up and down the rink without any determined attack being made. After a few minutes of this sort of play things livened up somewhat and the St. Nicholas line carried the puck into the Wanderers textitory and sent several shots at Woods, who neatly turned the puck aside each time. After five minutes of play Thompson and Souther carried the puck down the right wing and then passed it to K. Gordon in the centre, right in front of the Wanderers net. Gordon scored. Applications for membership in the Metropolitan Golf Association have been made by the Scottish American Golf Club of Van Cortlandt Park and the Ridgewood Golf Club. The Roseville Golf Club, which recently disbanded through losing its grounds, has resigned from membership.

George Turnbull, a good player and especially long driver, has been engaged by the Knollwood Country Club, it is said, as the successor to Robert Dow, who has been the professional there for about ten years. Turnbull taught T. M. Sherman when at the Sadahqueda Club, Utica, and he has since been at the Waterbury Golf Club and the Highland Golf Club, Jamaica.

Sutton Makes 500 Points in Twenty Innings and Defeats George Slosson.

The eighth game in the series between George Sutton and George Slosson at 18.2 balk billiards was played in Slosson's academy last night and Sutton won by a score of 500 to This puts him in the lead in the series with five games to Slosson's three. Both of the last two games have been 500 points, Sutton winning both. He made the excellent average of 25 last night, doing so largely by reason of a fat run of 181, amassed in the seventeenth inning. It was a very diversified run and up to that point Sutton was behind,

run and up to that point Sutton was behind, Owing to the change in the weather the balls were heavy and disposed to bump and Sutton had to work hard for his big cluster.

Slosson did his best work in the middle game stage, but he was uncertain in his shooting and counted in streaks. Sutton did poorly for the first half of the game, but was strong and speedy in the latter half. From the fourth to the ninth inning inclusive he made the scant total of 6 points. There was no stopping him when he once got warmed up, and though he did not control the balls as well as he generally does his execution was good. The score:

Laiterly there has arisen a feeling that his mistakes were perhaps the natural mistakes which a coach whose experience had been somewhat limited might reasonably be expected to make. The obstinacy which last year prompted him to reject suggestions which might have been beneticial to the team, in the future may stand him in good stead in resisting the well meant but frequently ill timed advice of the host of former football players who are always eager to have a hand in the coaching of the eleven at Harvard.

Mr. Crane is so situated that he can give his whole time to Harvard athletics if he cares to do so. This will in time supply the element of permanency which Harvard football coaching has lacked. Many undergraduates, however, believe that it is doubtful whether Mr. Crane will be the choice of the committee. There have been rumors that a number of last year's football team are opposed to his reappointment and that they favor the selection of Percy Haughton, who is a member of the present advisory committee.

INDIVIDUALS MAY ENTER FOR BRIARCLIFF TROPHY RACE.

Rules of Westchester Contest Permit Owners to Name Cars Provided Three of Same Make Have Not Been Nominated -A. M. C. M. A. Meeting in Detroit.

Surprise has been expressed that a larger number of private entries have not been made for the stock car contest for the Briarcliff trophy race in Westchester county on 24. In discussing this yesterday a well known local automobilist said that he had found in talking of the race to men of his acquaintance that there was an impression that entries could only be made by manufacturers in the case of American cars or by the importers of foreign machines. This idea is however a mistaken one as rule of the rules of the contest reads: vidual can enter a car without the consent of the manufacturer of such car, in writing, unless such manufacturer shall have failed to enter a car within ten days before the closing of the entries."

As the entries are to close on February it is now possible for individual owners to enter cars if they so desire, provided only the maker of the car has not already entered three of his machines on his own account. So far three individuals—Harlan W. Whipple. John K. Tyson and Arthur Hammerstein have made entries. Of these two other Stearns cars have been entered in addition to Mr. Whipple's, and two other Isotta-Fras chini cars have been entered besides one entered by Mr. Tyson, while Mr. Hammerstein's entry of an Allen-Kingston has the active approval of the manufacturer of the car. There is no requirement that entrants of cars be members of recognized national automobile clubs, as in the case of the Vanderbilt cup race, and it will be possible for amateur owners of cars that come within the limit of not more than 103.87 square inches of piston area to enter their machines inches of piston area to enter their machines in the contest and drive them themselves if they wish an opportunity to gain fame as road racing motorists.

In the early '60s Mr. McLaren defeated William Hodson, champion of Great Britain, in Newark for the championship of America, but was beaten in a return game.

McLaren won the first international quoit tournament held in this country, which took place in New York under the auspices of the Caiedonian Club. In 1884, 1886 and 1888 he captured the Bell medal, the Grand National (bub of America's chief quoit tropby.

Mr. McLaren was born at Alloe, Scotland, and came to this country when 21. At the age of 60 Mr. McLaren went to Scotland and issued a challenge to play any quoiter of his age in Great Britain, but no one accepted bis chaffenge. A match was arranged with Andrew Hunter, the champion, however, and McLaren was defeated. State Senator Ward of Cuyahoga county, Ohio, has informed the officers of the Cleveland Automobile Club that he expects the proposed uniform motor vehicle bill, which is now before the Ohio Legislature, will be enacted into law during the present session. He states that but two members of the Legislature are antagonistic toward the measure, and is of the opinion that they will be in favor of it when they fully understand its provisions. provisions.

French automobilists are very much pleased over the decision of the Automobile Club of France to hold a speed contest for small curs over the Grand Prix course the day before the Grand Prix contest is run. Automobile owners are showing increased interest in the smaller cars as the repair bills for the big machines mount up, and they expect to see a large number of entries in the junior race. An effort will be made to have the French club make the contest one for stock cars, such as are sold to the public, rather than merely an affair for out and out racing cars of small dimensions. It is thought that the contest will be made an international one, and entries are expected from Italy, Belgium, Germany and England.

Among the good roads bills now before Congress is one introduced by Representative Ferris. It provides for a "permanent, lasting and uniform system of improvement of public highways and nost roads," and contains provisions how the States and national Government may act in conjunction and by mutual contribution bring about the desired end and distribute the surplus in the Treasury gro rata each year among the States for good road purposes. Briefly stated, the bill provides that the surplus in the United States Treasury shall be available for distribution among the States and Territories each gear, no State or Territory to receive more than one half million annually. This amount will not be available unless the State or Territory furnishes satisfactory proof that it is willing and able to pay an amount equal to that received from the Government for road improvement.

For the Place as Coach of Harvard Football Team, to Replace Crane.

Cambridge, Jan. 23.—The graduate football advisory committee recently appointed at Harvard has held several sessions for the purpose of determining on the next year's head coach. No report of its proceedings has been given out.

Except in sudden emergencies, brakes should always be applied gradually. If they are applied too suddenly there is danger of stripping the tires from the wheels or at least doing them considerable damage and otherwise straining the car, if the foot brakes do not hold firmly, though tightened sufficiently, it may be that some oil has got into them, in which case the brakes should be washed out with gasolene. It is a good practice to wash out the brakes in this way every once in a while. Should all four brakes be inadequate to hold a car from going forward down grade too fast in an emergency shift the change speed lever to the first speed notoh, throw off the twitch and let the clutch in gently by gradually releasing the brakes. This method of descending a hill on the compression of the motor should be employed only in case of emergency. If the sprag is out of order and a car starts to back down hill too fast for the brakes to hold the same method of braking by using the compression of the motor should be placed in the reverse gear notch.

New England Players Take Part in Atlantic Association Tournament. .The tenth annual congress of the Atlantic

Whist Association is now in progress at the rooms of the Knickerbocker Whist Club, Hotel Victoria. President C. L. Patton yesterday welcomed the delegates and players from Albany, Baltimore, Elmira, Syracuse, Troy, Rochester, Easton, Scranton and Philadelphia, all of which towns have sent teams to compete for the Albany trophy for club fours. A number of players from the New England Whist Association, especially from Boston and Providence, have come on to take part in the events for progressive pairs, which are open to all whist players, whether members of the league or not. There will be three of these open events to-day at 10, at 2 and at 8. To-morrow the great attraction will be the play for the Atlantic trophy for pairs.

The final match for the Albany trophy, which represents the championship for clubs in the Atlantic Association represented by teams of four, was won by four women from the New Amsterdam Whist Club of New York city, Miss Campbell, Mrs. Greene, Mrs. A. A. Smith and Miss Belle McCord, who defeated the crack four men of the Baltimore Whist Club, Harvey, Gaither, Thomas and McEldowney.

The top scores in the open progressive pairs were made by: A number of players from the New England

It is not likely that there will be any changes of moment except the modify ing of the forward pass. It is pretty gener ing of the forward pass. It is pretty generally agreed among the best judges that the rules of last season encouraged too free use of the forward pass and made the play too haphazard. One of the modifications suggested is that the rule be the same as it was the year before last, loss of the ball for an incompleted pass, no matter on what down.

E. K. Hall of Dartmouth, a member of the rules committee, has a suggestion that is a compromise between the rule as it was two years ago and as it was last year. His idea is that there be a distance penalty for the first down only. Last year a distance penalty for an incompleted pass was provided for the first and second downs.
